

Breast - Gynecological & Immunooncology International Cancer Conference

One World Against Cancer

RADIOLOGY COURSE

Course Director and International Experts

Prof. Rasha Kamal

Prof. Ahmed Emad

Prof. Merit Al-Madawi
Consultant Radiology, Toronto

Prof. Jean Seely
Professor of Radiology
Head of the breast imaging section of
the department of medical imaging
Regional breast imaging lead for the
ontario breast screening program
Ottawa University Canada 

Prof. Jennifer A Harvey
Professor of Radiology and Medical Imaging
Vice Chair of Education and Faculty Development
Director, UVA Breast Imaging
Co-director, UVA Breast Care Program
University of Virginia Health System -
Charlottesville, Virginia 

Prof. Shilpa Lad
Consultant Radiologist, Breast Imaging & Interventions:
NIM Medical Center, Mumbai, India
Core Committee Member: Breast Imaging Society of India
Former Staff Radiologist: Women's Breast Health Center
The Ottawa Hospital, University of Ottawa, Canada 

Topics

Best Practice Breast Imaging Guidelines: from screening to post breast cancer surveillance:

- Risk – based screening protocols
- Work up of palpable breast lump
- Imaging approach to breast lesions in young patients
- Best practice guidelines in the management of mastitis: when to re-assure, when to follow up and when to interfere?
- Best practice guidelines in the management of nipple discharge
- Managing women with dense breasts
- Role of new Imaging modalities in the diagnostic work up of symptomatic patients
- Best practice for Interventional breast procedures.
- The diagnostic dilemma of managing axillary nodes
- Imaging in the setting of neo-adjuvant chemotherapy
- Calcifications made easy.

Specific breast cancer subtypes:

- Lobular carcinoma; imaging features.
- Spectrum of Imaging Findings in Paget's Disease of the Breast
- Multimodality approach in the diagnosis of DCIS
- Managing BIRADS 3 lesions
- Imaging Bio markers of breast cancer.
- Spectrum of disease in the male breast

Pelvic Imaging:

- PET CT; to do or not to do
- Ultrasound guided HIFU treatment of leiomyomas; Egyptian experience.
- Gestational trophoblastic disease
- Role of diffusion in the diagnosis and staging of uterine and cervical carcinomas

Workshops:

- Rising stars Competition
- Unusual Breast Cancers
- Improve your breast cancer screening skills
- Case-based review: meet the experts
